# **OUR CORE VALUES**

#### Innovation

Continuous improvement through visionary ideas, perseverance and optimism.

### Morals

By incorporating the highest ethical standards, we demonstrate integrity and fairness in every action we take.

### **Customer Relations**

Building long term relationships by being responsive, flexible and exceeding expectations.

### **Business Principles**

As a proactive result driven company, we consistently provide a superior product and working environment through accountability.

"WE SHALL UPHOLD QUALITY AND VALUE WHILE MAINTAINING INTEGRITY."

-JOHN WIMSATT

JT Wimsatt Contracting Company, Inc. is Self-Insured and was granted a Certificate of Consent to Self-Insure (Number 2334) by the California Department of Industrial Relations.

JT Wimsatt Contracting Company, Inc. understands the complexity of construction projects and commits all work activities to an injury free jobsite. We are aware of the hazards inherent in all projects and set forth strategies to eliminate and/or protect against these hazards. We evaluate and plan all activities prior to work commencement, to ensure the safest work environment possible. We evaluate the safety concerns as the project progresses and implement all measures necessary to support our commitment to an injury free workplace.

It is JT Wimsatt's obligation to protect our employees, the environment and all others who may come in contact with or are exposed to our work activities. We will do all that is necessary to fulfill these requirements and are constantly re-evaluating the safety effort as our projects proceed. We have one of the most comprehensive Safety Programs for a concrete subcontractor in the industry. JT Wimsatt and its management hold safety as our highest priority.

JT Wimsatt Contracting Company, Inc. oversees all activities and tasks needed to maintain a desired degree of excellence. The JT Wimsatt crew follows our Quality Control Action Outline closely each day. From developing written plans prior to construction, to conducting pre-construction meetings each day, we are able to execute a level of high quality work.

#### **ENVIRONMENTAL POLICY**

It is the policy of JT Wimsatt Contracting Company, Inc. to operate in a manner that is protective of our employees, customers, and the environment. The implementation of this policy is guided and directed by the Environmental Management System that encourages continual improvement in achievement of the following goals:

#### REGULATORY COMPLIANCE

We will meet or exceed the requirements of all applicable federal, state, and local environmental laws and regulations and other requirements we subscribe to.

#### PREVENTION OF POLLUTION

We will seek to cost-effectively avoid the creation of pollution and unnecessary waste from our operations and to manage remaining waste through safe and responsible methods and vendors.

#### CONSERVATION

We will strive to diminish our consumption of natural resources through cost-effective use of recycled and reused materials and conservation of energy and water.

#### **EMISSIONS AND EFFLUENTS**

We will work to improve the environmental quality of emissions and effluents by employing cost effective operational controls, and by diligently monitoring operational indicators, and implementing corrective and preventive actions whenever necessary.

#### **ECOLOGY AND HABITATS**

We will protect habitats, wetlands, and other sensitive ecological resources in accordance with applicable regulations and local ordinances.

#### COMMUNICATIONS

We will communicate this policy to all employees and those (e.g. subcontractors) working on our behalf. We will make it available to the public, and establish procedures to receive and respond to inquiries from external interested parties. We will be an environmentally responsible neighbor in the community where we operate. We will act quickly and responsibly to correct incidents or conditions that endanger health, safety, or the environment, report them to the authorities promptly, and inform everyone who may be affected.
